Dr. William H. Pickering
Director
Jet Propulsion Laboratory
4800 Oak Grove Drive
Pasadena, California 91103

Dear Dr. Pickering:

This is to notify you that we have scheduled a one-day meeting of the Space Intelligence Panel at CIA Headquarters, Langley, Virginia, on the 19th of November. The meeting will start at 9:00 AM and will end no later than 4:30 PM.

As in previous sessions we propose to present briefings to the Panel during the morning and to reserve the afternoon for discussions. The briefings will primarily concern the Soviet manned space programs, with special emphasis on manned lunar programs. At Dr. Ramo's request a survey of the ballistic missile situation will also be presented.

STAT

The Foreign Missile and Space Analysis Center is handling all arrangements for the meeting. Please call Mr. Brandwain's office on area code [redacted] to confirm your attendance. If you will require any form of assistance while in the Washington area his office will be happy to assist you.

I hope that you will be able to attend the meeting. There is a good deal of new and important material to be discussed and I am looking forward to seeing you.

Sincerely,

Carl E. Duckett
